Super Duty Grapple for Skid Steers

• Made from 1” High Tensile Steel
• 400 BHN tips
• Utilizes the widely accepted 2 pin quick hitch system to fit most skid steers loaders
• Hydraulic Pressure required is 2200 PSI or greater
• Easily scarifies and tips tough ground and roots
• Handles large, hard to handle I-beams & steel
• Has the most clamping and crushing power available
• Makes demolition and removal of concrete easy

Timberline Tree Shear

Available in 2 Sizes

• Operates with existing Hydraulics
• Made from 1” High Tensile Steel plate
• Standard quick attach coupler or pin on couplers
• Alignment is always true
• Single blade design allows for predictability of falling trees.
• Narrow shears gets into tight spaces
• Cuts a 14 inch diameter tree at ground level in a single pass in 5.5 seconds
• Rotates 110 degrees to accommodate horizontal and vertical cutting
• HT model rotates with the flick of a switch from the safety of your skid steer’s cab
• All major pivot points are machined and greaseable for long life

Single & Dual Arm Grapples

Great for ease of handling irregular items (logs, pipes, poles, & odd shaped materials.) Closes down to just 12 inches

MacGrab for Telehandlers & Loader Backhoes

• Optional single arm units available
• Open height 24” to accept forklift load at 30” closed height
• Four control valves to adjust arm closure speed
• Supplied with 40’ Fully Forged Forks
• Fully Pressure Tested!

Dur-A-Grab for Skid Steer Loaders

Available in 10 Tine Narrow & 10 Tine Wide

Carriage-mounted Grapple

For Class II, III, or IV carriages

• Can be adapted to custom carriages

Saddle & Snatch for Skid Steer Loaders

2,000 PSI Hydraulic components

AMH Brush & Root Grapple

• Great for handling brush, roots, rocks, & construction debris
• Made from high strength steel for greater durability and greater strength
• Two 3000 PSI hydraulic cylinders with guards
• Teeth spacing 9” apart
• Includes hydraulic jumper hoses

Max-Grapple Buckets

42” Opening for greater capacity

Designed for Skid Steer & Ag Loaders

• Four Grapple arms make up two Heavy Duty mounted grapple assemblies with one 2” Hydraulic cylinders with guards
• Available in 48” & 72” Inside widths with a 30” yard capacity

ProMac Bucket w/ Grapples

Heavy duty grapple arms and bucket assembly

• 3000 PSI Hydraulic components
• Two 3” cylinders w/ guards
includes Female Quick Coupler plates
Reinforced bucket radius for strength, rigidity, easy clean out and back dragging

**Heavy Duty Forks**

- **Max Frames & Forks**
  - **Nighty Max series**
    - Universal mounting to 100 Ton.
    - High strength 100 Ton 4-leg forks.
    - High capacity rated 4-leg forks.
    - Heavy duty weight rated 4-leg forks.
    - Includes complete line of attachments.
    - Made from high strength steel.
  - **SuperMax series**
    - Pintle hook for universal mounting.
    - Includes 4-lug capacity and 4-lug strength.
    - Heavy duty 100 Ton 4-leg forks.
    - Made from high strength steel.
  - **Dura Max & DuraMax Plus**
    - Heavy duty 100 Ton 4-leg forks.
    - Made from high strength steel.
    - Includes complete line of attachments.

- **Three-Point Hitch Adapter for Skid Steers**
  - Great for three-point hitch and can be used with all brands of skid steers.
  - Includes complete line of attachments.
  - Made from high strength steel.

- **Micro Accessories**
  - **MicroMax & MiniMax series**
    - For stand-up 3-wheel Skid Steers.
    - Made from high strength steel.
    - Includes complete line of attachments.
  - **MicroFork & Micro Plate**
    - Made from high strength steel.
    - Includes complete line of attachments.

- **Heavy Duty Forks**
  - **ProMac Frames & Forks**
    - **ProMac 1018, 26, 40**
  - **MiniBuckets for all makes of forklifts**
    - Includes full line of attachments.
    - Made from high strength steel.
  - **Reinforced MAX Forks for Skid Steers**
    - Available in 60” to 94” inside widths.
    - Made from high strength steel.
    - Includes complete line of attachments.

- **Truck & Tool Boxes**
  - **ProMac Frame & Forks**
    - **ProMac 1018, 26, 40**
  - **MiniBuckets for all makes of forklifts**
    - Includes full line of attachments.
    - Made from high strength steel.
  - **Reinforced MAX Forks for Skid Steers**
    - Available in 60” to 94” inside widths.
    - Made from high strength steel.
    - Includes complete line of attachments.

- **Bale Spear & Mountings**
  - **Internal Bale Spear Kit**
    - For Compact Skid Steer Loaders and Tractor Loaders.
  - **Socket receiver**
    - For attachment to the front of the machine.
    - Made from high strength steel.

- **Max Frames & Forks**
  - **Nighty Max series**
    - Universal mounting to 100 Ton.
    - High strength 100 Ton 4-leg forks.
    - High capacity rated 4-leg forks.
    - Heavy duty weight rated 4-leg forks.
    - Includes complete line of attachments.
    - Made from high strength steel.
  - **SuperMax series**
    - Pintle hook for universal mounting.
    - Includes 4-lug capacity and 4-lug strength.
    - Heavy duty 100 Ton 4-leg forks.
    - Made from high strength steel.
  - **Dura Max & DuraMax Plus**
    - Heavy duty 100 Ton 4-leg forks.
    - Made from high strength steel.
    - Includes complete line of attachments.

- **Micro Accessories**
  - **MicroMax & MiniMax series**
    - For stand-up 3-wheel Skid Steers.
    - Made from high strength steel.
    - Includes complete line of attachments.
  - **MicroFork & Micro Plate**
    - Made from high strength steel.
    - Includes complete line of attachments.
